EXPERIENCE

SENIOR PROJECT ARCHITECT

Vattanac Properties / Cambodia (2019 - Present)

In my capacity at Vattanac Properties, I am tasked with leading an international consultancy team entrusted with the delivery of Cambodia's largest satellite city project. In response to the client's limited experience, my role naturally progressed to that of Head of Department, wherein I assume comprehensive oversight of the project in its entirety.

My responsibilities include;

- Establishing department standards
- Developing scopes, schedules and budgets
- Tracking expenses and cost estimates
- Delegating tasks and monitoring progress
- Addressing and resolving design issues
- Responding to RFIs, SIs and AIs
- Managing internal project teams
- Leading the design process
- Building code compliance
- Overseeing marketing collateral

PROJECT ARCHITECT

HL Design Group / Malaysia (2017 - 2019)

At HLDG, I served as Project Architect, specializing in commercial and master planning projects. Successfully securing contracts for luxury beach-front resorts and regeneration projects, I transitioned into construction management. Leading a skilled team, I ensured timely project delivery within expedited time frames.

My responsibilities included;

- Developing designs from concept to tender
- Tender submissions, interviews and reviews
- Coordinating MEP and C&S
- Reporting progress to Board of Directors
- Building code compliance
- Supervising construction phases
- Managing Change Orders
- Risk management strategies

LEAD ARCHITECT

Quirk & Associates / Malaysia (2015 - 2017)

My scope at Q+A consisted of managing the Architecture department for the construction of Malaysia's largest shopping mall, Genting Luxury Mall, situated in Genting Highlands. In addition to commercial projects, I led the design and construction of luxury villas situated across Kuala Lumpur. My responsibilities included;

- Developing architectural designs
- Draughting construction details
- Chairing construction meetings
- Developing interior designs
- Preparing tender documents
- Preparing IPCs, RFIs, SIs and AIs

DESIGN ARCHITECT

Linear Vista / Malaysia (2012 - 2014)

During my tenure at Linear Vista, I significantly broadened my expertise from overseeing small-scale residential projects to large commercial refurbishments. Leading the Mid Valley Mall refurbishment provided me with invaluable experience in managing a team to successfully execute a project of considerable size. My responsibilities included;

- Developing project brief
- Preparing tender packages
- Coordinating MEP & C&S
- Preparing IPCs, RFIs, SIs and AIs
- Resolving design issues on site
- Conducting tender interviews
- Supervising construction
- Supervising handover

ARCHITECT

Foster + Partners / United Kingdom (2010 - 2012)

At Foster + Partners, I honed my design skills and expertise from previous roles. Engaged in high-profile design projects, I also produced top-tier training videos and documentation for company-wide implementation of Adobe CS5 Suite. My responsibilities included;

- Developing Architectural designs
- Developing construction details
- Coordinating MEP & C&S
- Training staff on Adobe CS5 suite
- Preparing project briefs
- Preparing 3D visuals
- Preparing tender documents
- Creating training material
